MobiSpaces

New Data Spaces for Green Mobility

An innovative, effective, robust & green ecosystem for the entire lifecycle of mobility data.

Use Cases

Five mobility use cases from the urban and maritime domains will show the impact of the MobiSpaces platform in real life scenarios.

iRoute
Intelligent Public Transport Routing

SmartSense
Intelligent Infrastructure Traffic Sensing

MarineTrafficTracker
Edge-powered Vessel Tracking

CrowdSeaMapping
Federated Learning for Enhancing Nautical Charts

VesselEdge
Edge Computing Onboard of Moving Vessels
